

ENCOUNTER 17 DIGITAL CUE CARD PACKS

Dear Teacher,

We have created digital cue card packs for the Teachers and for the Students for every Encounter. The Teacher packs contain a full set of cue cards, and the 6 Student packs contain only a partial set of cue cards specific to that particular Student's role for each activity during an Encounter. Before class please review the Student card packs along with the Lesson plan to become familiar with the way the cards will be assigned during class. You can share the card packs with Students 1-6 before or at the start of the class, and during the class you will instruct each Student when to swipe to the next card. All card packs have been created with the following guidelines in mind:

- Each Teacher pack contains all the cue cards for the Encounter.
- Each Student pack contains all the cue cards that a particular Student will need for every activity in the Encounter.
- Each Student pack is labeled according to which group and/or pair that Student should be placed into for the activities in each Encounter.

Below is the guide to the cue card packs that details the way we have assigned cards to each Student for every activity in Encounter 17. Note that because the pair work for activities 2.1 and 4.1 require the Students to swap cards, roles, and/or partners, we have given all cards for the activities to Student A and to Student B, so you will need to tell each Student when to look at the appropriate card during those activities.

Teacher	Student 1 (Group 1; Pair 1)	Student 2 (Group 2; Pair 1)	Student 3 (Group 1; Pair 2)	Student 4 (Group 2; Pair 2)	Student 5 (Group 1; Pair 3)	Student 6 (Group 2; Pair 3)
